

Schmidt

SIGMA 76 / 96
PLATE HEAT
EXCHANGER

API Heat Transfer

... world leaders in heat transfer technology

- An addition to the Schmidt SIGMAFIT series for flows up to 480 m³/h
- Heat transfer surface up to 280 m² per unit
- Particle sizes to 2 mm
- Viscosities to 10,000 mPas
- Operating pressures to 25 bar
- For all process industries, especially food, beverage and HVAC
- Available in all current plate and gasket materials
- Using the Schmidt SIGMAFIX snap fix adhesive free gasket system
- Plate areas: SIGMA 76 – 0,76 m² / SIGMA 96 – 1,0 m²
- Nozzles DN 150
- 'Fishbone' pattern corrugations for hard, medium and soft flow and heat transfer characteristics
- Super fast delivery times
